

MGB Academy

Workforce Development Initiative

*Building the Workforce That
Builds Missouri's Future.*

1. WHY THE MGB ACADEMY EXISTS

Missouri does not lack commercial building opportunities. It lacks enough professionals who understand how to connect building improvements with financing. The MGB Academy closes that workforce knowledge gap through practical, role-based education that helps professionals recognize opportunities, connect capital, and move projects from concept to completion.

2. WORKFORCE DEVELOPMENT FOR THE ENTIRE COMMERCIAL BUILDING INDUSTRY

WHO WE TRAIN		WHAT PARTICIPANTS LEARN	
	Commercial Contractors	>	Identify finance-ready projects
	Property Owners	>	Understand C-PACE and financing
	Developers	>	Guide owners through financing
	Architects & Engineers	>	Coordinate with lenders
	Energy Professionals	>	Expand project scope
	Community Banks	>	Support economic development
	Capital Providers	>	Reduce waste
	Municipal Officials	>	Complete more projects

3. THE MGB DIFFERENCE

The Academy is more than a training program. It is Missouri Green Banc's workforce development platform, built to strengthen the professionals who design, finance, supply, build, own, and manage commercial buildings.

**Markets set in motion.
It all starts with collaboration.**
