

C-PACE for Architects and Engineers

Learn how NPCA helps your clients finance the measures your drawings call for.

A program of Missouri Green Banc | MGB Academy | Workforce Education & Training Series

What does this course do?

The measures a design specifies are only built if they are funded. The course shows how NPCA connects commercial clients with capital providers and contractors at no cost, so a design team can specify better systems.

Who should take it?

- Architects and engineers serving Missouri commercial clients
- Mechanical, electrical, and envelope designers
- Firms advising owners on capital planning

Registration is required before the course opens.

Course page

[missourigreenbanc.org/c-pace-for-architects-and-engineers/](https://missourigreenbanc.org/courses/c-pace-for-architects-and-engineers/)

What does the course cover?

- How the platform surfaces best-fit candidates
- How project scope translates into fundable elements
- How the economic benefit standard and engineer certification work
- How guiding clients toward C-PACE strengthens the design and the advisory relationship

[Confirm the published segment count and runtime from the MGBA-AE-101 script before release.]

What do you take away?

- An MGB Academy course completion certificate
- Ten job aids (MGBA-AE-JA-01 through JA-10) covering eligibility, scope, and documentation

NOTE: Because program terms, citations, and funding availability change, confirm current requirements with Missouri Green Banc before relying on this sheet. Missouri Green Banc is a 501(c)(3) nonprofit green bank and administers the Missouri Clean Energy District, the statutory C-PACE authority under § 67.2800 RSMo, serving more than 300 member communities covering roughly 62% of Missouri's population. This sheet describes a course; it is not an offer of credit or a commitment to fund. Completion is a training record. It is not a license, a certification of engineering judgment, or an authorization to act for Missouri Green Banc or the Missouri Clean Energy District.

How do we get started?

- Register at missourigreenbanc.org/register/ as General User
- Work the course at your own pace on the course page
- Finish the course, then put the platform to work on a live project

Are there other requirements?

- Register before the course opens; access is tied to the registration
- The engineer certification of economic benefit is a professional judgment the course does not supply
- The course does not put the design team in the position of selecting a capital provider or a contractor
- Existing mortgage lender consent is obtained before closing

How long does it take?

- *[Confirm runtime and seat time against the script.]*
- Self-paced, with no scheduled sessions

What does it cost?

- **Course tuition:** none — the course is offered at no cost
- NPCA participation is fee-free for property owners, contractors, and capital providers alike

Who can answer questions?

Missouri Green Banc, MGB Academy — (866) 554-4083
communications@missourigreenbanc.org

What should you tell a client?

- Assessment contracts run up to 20 years, not to exceed the weighted average useful life of the improvements
- The statutory test is economic benefit; a savings-to-investment ratio of 1.0 or better, certified by a qualified engineer, is the requirement Missouri Green Banc applies
- The owner chooses the contractor and the capital provider as two separate decisions; nothing in the course puts anyone else in that seat
- Property owners have their own free MGB Academy course on how NPCA — National PACE Capital Access — surfaces best-fit capital providers and contractors

What governs this program?

- Missouri C-PACE enabling statute, § 67.2800–67.2835 RSMo
- MCED program guidelines and fee schedule
- NPCA platform terms of service and participation agreements

Where can I learn more?

- Course page: missourigreenbanc.org/courses/c-pace-for-architects-and-engineers/
- NPCA registration: missourigreenbanc.org/register/
- Related tracks: energy auditors, property developers, equipment providers

Why does Missouri Green Banc do this?

A specified measure that gets value-engineered out is a design failure with a financing cause. When the design team can name a funding path, the scope survives the budget conversation. C-PACE is available in more than 300 MCED member communities, covering roughly 62% of Missouri's population.

NOTE: Because program terms, citations, and funding availability change, confirm current requirements with Missouri Green Banc before relying on this sheet. This sheet describes a course; it is not an offer of credit or a commitment to fund.
